**Description**

L-com's LCCA31034-M1 is a plenum N male to SMA male right angle low PIM cable using SPP-250-LLPL coax using Times Microwave parts 1 meter and ships same-day. These corrugated RF cable assemblies are extremely durable and ideal for high power applications. Our L-com N to SMA cable assembly has a male to male gender configuration with corrugated SPP-250-LLPL series coax and operates to 5.8 GHz. The jacketed copper shield provides reliable durability and excellent shielding effectiveness greater than 100dB. This right angle SMA cable interface on the SPP-250-LLPL coax allows for easier connections in tight spaces. Times Microwave cable is used in each assembly and TMS components are used to form connections with the super flexible low PIM cable. These cable assemblies are expertly built to satisfy your specific need with high quality Times Microwave Systems manufactured parts.

Custom versions of this N male to N male cable, along with the rest of L-com's other RF assemblies, can also be built and shipped same day. Other available RF cable assembly value added services from L-com include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly. Contact a sales representative for testing or custom RF cable quotes.
